What Doctors Say About Good Beer

The most eminent and best known physicians are ous in saying that, of all beverages, good, pure beer is the most wholesome.

That good, pure beer, like <u>Honicaster</u>, com-bines not only the properties of water as a thirst-quencher and provider of fluid for the bodily func-tions, but is a wholesome, nutritious, digestible and invigorating liquid food.

Why then continue to use other beverages which contain only one or two of these properties when you can have Dawes' <u>Honigsbise</u>—the purest, most wholesome and most delicious beverage that it is possible to brew!
